

Technology People Ideas

## Introduction

TPI is a privately held, veteran owned, small disadvantaged, minority business located in Gilbert, Arizona with regional offices in Utah and New Mexico. Our company provides professional design, engineering, and integration services for most low-voltage applications. We have a nationally recognized expertise in integrated digital audiovisual systems.

Established in 2000, The TPI offices have more than 40 full-time employees and have an average annual revenue in excess of \$10M. Over the years we have earned the reputation of being a reliable company with the experience, expertise, and commitment to complete projects on time and within the budget. Our projects range from simple single display solutions to extremely complicated campus wide solutions consisting of hundreds of systems.
